

Disinfectant & Sanitizer Spray Pump Packages
(Dezenfektan ve Sanitizer Spray Pompa Paketleri)

1. Air Operated Spray Pump (Hava Tahrikli Spray Pompa)

Air operated piston pump for use with medium to large surfaces in areas where the use of electric pumps is not possible.

Mounted on a trolley includes air pressure filter, regulator and outlet filter.

Pump manufactured in Stainless Steel with PTFE seals.

Can be used with 200 L drums, 1000 L IBCs or smaller containers.

Choose suction accessories, hose and spray gun in the accessories section.

Can mount up to two hoses at the outlet.

Requires compressed air, 3 to 7 bar pressure

ATEX Ex III G c IIB T6

Part Number LA142 1C4

2. Electric Operated Spray Pump (Elektrik Tahrikli Sprey Pompa)

(TANK INSTALLED)

(TANK DAHİL)

(WITHOUT TANK. SUITABLE TO USE WITH EXTERNAL TANK)

(TANK HARİÇ. DIŞARIDAN TANK İLE KULLANIMA UYGUN.)

Electric Diaphragm pump, 2.2 KW, with aluminum body and Nylon Diaphragm, can be used to spray medium to large surfaces.

Mounted on a trolley, can be used with two hose simultaneously.

Can be used with 200 L drums, 1000 L IBCs or smaller containers.

Choose suction accessories, hose and spray gun in the accessories section.

Possibility to include a 50 L polypropylene tank.

Order information

LA412 228, Electric diaphragm pump, 220 V

LA412 118, Electric diaphragm pump, 110 V

LA412 229, Electric diaphragm pump with 50 L tank, 220 V

LA412 119, Electric diaphragm pump with 50 L tank, 110 V

3. Engine Driven Autonomous Spray Pump Unit (Motor Tahrikli Otonom Spray Pompa)

Autonomous spray unit recommended for outdoor spraying. Mounted on an easy to maneuver trolley, this unit mounts a 5.5 HP Yamaha gasoline engine connected with a transmission belt to a high-pressure diaphragm pump.

The pump is capable to supply two spray guns working simultaneously.

Order hoses and spray guns separately.

Possibility to choose between a 30 or 50 L polypropylene tank.

Order hoses and spray guns separately.

Order Information:

LA491 011 Autonomous sanitation unit with 30 L tank

LA491 012 Autonomous sanitation unit with 50 L tank

4. Accessories (Aksesuarlar)

Part Number LA501 240
Airless spray gun, maximum working pressure
250 bar. Includes one spray nozzle (P.N. LA510
136) and 1/4" single swivel inlet.
Spray gun extension outlet
Part Number LA501 902. 60 cm long
Part Number LA501 904. 100 cm long

Pole Guns.

Spray guns specially designed for having an easy access to hard to read areas. Extra long outlet with a Z

swivel before the spray tip for a better spray control. Each pole gun includes a one spray nozzle (P.N. 510

136)

Part Number LA501 510. 130 cm long pole gun

Part Number LA501 511. 180 cm. long pole gun

Part Number LA501 512. 240 cm. long pole gun

Uygulama alanları:

- Ofis binaları,
- Fabrikalar, depolar ve lojistik merkezleri,
- Alışveriş merkezleri, tiyatro, sinema, restaurantlar,
- Otobüs durakları, trenler ve havayolları,
- Hastane ve sağlık merkezleri,
- Stadyum, spor merkezleri, spor salonları,
- Yollar, park ve bahçeler.

Dezenfektanlar:

En yaygın seyreltilmiş çözeltiler :

- Sodium hypochlorite (çamaşır suyu) 1% maksimum
- Paracetic acid (temizlik sirkesi) 1% maksimum
- Hydrogen peroxide
- Quaternary ammonium compounds (amonyak)
- Ethanol and diğer alkoller (1)

(1): Alkol ve diğer yanıcı sıvılar ile sadece ATEX sertifikalı ürünler kullanın.
